## ABOUT THE CONFERENCE

Through a series of lectures, workshops, and case discussions, physician attendees will be provided with a wide variety of up-to-date practical information that can be easily applied to their everyday medical practice. Many of our attendees handle day-to-day medical cases while others serve as medical directors of various companies, clinics, healthcare facilities, public health units, and governmental agencies. Exhibitors have the opportunity to interact with both attending physicians and healthcare administrators.

The CME program will feature outstanding speakers and experts in their fields. Sessions will address current and forthcoming medical issues of concern and interest. Topics will have particular appeal to primary care providers. Through the didactic sessions, refreshment breaks and various social activities, opportunities are provided for participants to interact and learn from their colleagues.

Exhibitors and sponsors are encouraged to provide support for these varied lectures and interchange activities.

The Scientific Expo and Exhibit Hall will open Wednesday- Friday, June 2-4. Morning breaks will be held in the exhibit hall on Wednesday-Friday to promote visitation and interaction with exhibitors.

All exhibitors and supporters are invited to share break refreshments with our attendees in the exhibit hall and attend our Wednesday evening poolside reception. As always, we will solicit feedback and suggestions from our exhibitors and supporters to ensure that our future meetings are valuable investments.

Representatives from pharmaceutical companies, testing labs, device suppliers, physician employers, practice-management, and other medical industry partners will have the opportunity to meet our attendees on an individual basis and spend quality time educating them on new products and approaches to medical issues of common concern. The exhibit expo will provide a casual and relaxed atmosphere for professional interchange between attendees and company representatives.
