\*MOMA reserves the right to make changes to the announced agenda without notice.

\*\*Credits will be reported to FBOM via CEBroker for all attendees holding a Florida License. Courses contain content that is also very suitable for all other state licensees.

We provide the updates on AOA and WCU, but I don't think that they qualify for CME credit. We can add an hour somewhere else without disrupting the schedule too much, so that we don't decrease the number of hours offered.
